### Smooth operation with a height adjustable desk

Otto stimulates your mind during working at the same time eases for you to change your position. Its structure support the movement and contributes to the user's health.

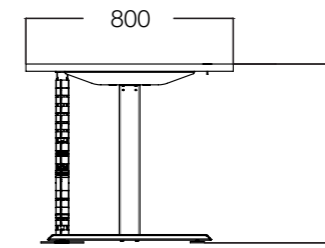

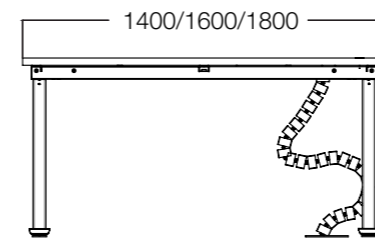

Otto is a new generation work system that entwines technology with user-centered design. Otto facilitates a more flexible working style, individually or as a team. Changing the height of the desktop with ease stimulates the body, enlivens the mind and accommodates both concentrated and collaborative styles of working.

In accordance with international norms, Otto's mechanism allows continuous adjustment of two alternative desktop heights; either from 68 cm to 118 cm or 65 cm to 125 cm. It is possible to make the height adjustments either with the built-in controls or wirelessly via Bluetooth 4.0 technology on a smart phone or tablet, through a complimentary application. Otto enables multiple working postures by supporting both seated and standing positions. Thanks to its electric connection, users can easily reach to power with Otto Custom and Otto Omnia. With Otto Omnia's screen, it enables to privatise.
