Eon Collection

Design by **Nurus D Lab**

One chair to rule all.

Featuring a non-complex and simple design and offering rich material options, Eon easily fits into different areas. Solid, uni-body wooden seating with a natural back curve delivers the comfort that make you feel home.

Rich colour, leg, accessory, and material choices featured in Eon seamlessly blends into all interior design styles, making it an ideal choice for common areas and public spaces such as cafés, restaurants, and educational institutes.

Creating home comfort everywhere, simple form of Eon makes it a perfect choice to use different spaces. Coming with cushion and cushionless versions, Eon is suitable for use both indoors and outdoors.

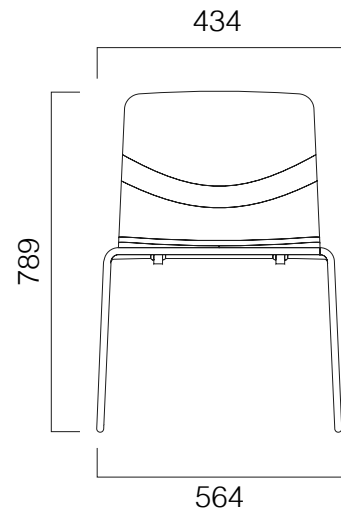

Eon offers a rich product family; seated on an Eon chair can be a student taking notes in a class, an executive making important decisions, or a couple having breakfast. In addition to different leg options, Eon also features a series of material choices including veneered, upholstered counter, and white laminated, extending possibilities and purposes.

It's not only rich material choices about Eon; with other optional accessories such as writing pad, armrest, and basket, Eon fits into all spaces. Eon offers a very comfortable sitting experience with a curved back and integral plywood structure. Eon chairs can also be stacked easily.
