Me Too Fluid Motion Plus[®]

Design by **Nurus D Lab**

Me Too Fluid Motion Plus®

We spend a great deal of our lives sitting, despite our anatomy dictates otherwise. Sitting comfort and support are increasingly important due to the prevalence of musculoskeletal disorders. They are also associated with several risk biomarkers of cardio-metabolic health. A fully adjustable task chair of solutions may help with minimizing the risk of suffering these disturbances.

Prolonged seated working presents several problems for physical health; the neck, shoulders, arms and legs. Sitting may be inevitable; so is coming up with answers to minimize fatigue. Me Too is highly adjustable; **Fluid Motion Plus®** mechanism, and other solutions are featured in the fully adjustable arms, front-tilt, optional lumbar and neck supports and in the seat slide. Fabric, leather or eco-leather seating; leather or open mesh backrest is available options.

Me Too has 25 degrees backrest tilt capacity , and it may be locked in 4 different positions. In addition to **Fluid Motion®** mechanism, **Fluid Motion Plus®** has a 8 degree front-tilt and seat slide features. During the back tilt, the seat moves about 2.7/1, and Me Too offers a balanced protection of the distance between the lower back and sitting surface.

- Supports freedom of movement and promotes dynamic sitting.
- 70 cm base diameter to assure stability against tipping over.
- Castor wheel options for soft and hard floor use.
- Features two types of locking wheel mechanisms for increased safety: "Locked when loaded" and "locked when unloaded".

Me Too's high quality and safety standards have been approved internationally by GS Certification from LGA (Landesgewerbeanstalt Bayern) Institute.

Design by Nurus D Lab

Always up-to-date with science and technology, Nurus D Lab designs products that are ahead of their time. Through human-centered observation, prototyping and in respect to trending needs and dreams, the team works diligently. Coming up with meaningful and reflective design solutions only marks the start of the process: From strategy to launch and support, D Lab manages it all. Each detail is attended and tested through at the advanced level.
