Me Too Collection at a Glance

Design by **Nurus D Lab**

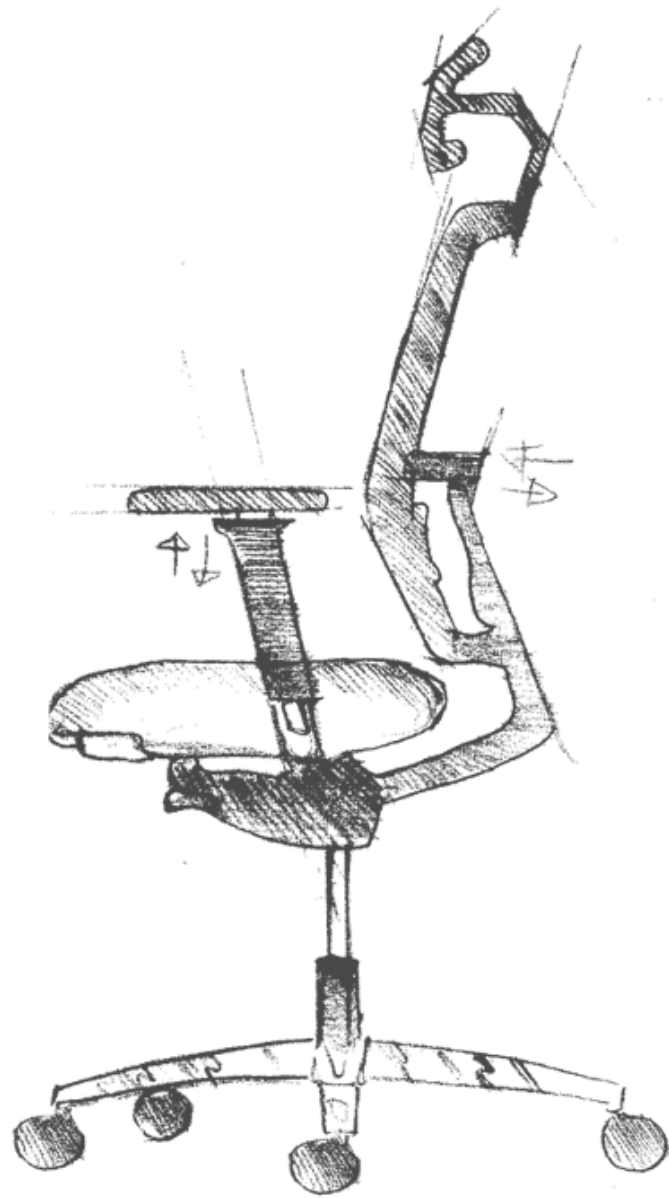

One of the world's best personal performance task chairs.

We spend a great deal of our lives sitting, despite our anatomy dictates otherwise. Sitting comfort and support are increasingly important due to the prevalence of musculoskeletal disorders. They are also associated with several risk biomarkers of cardio-metabolic health. A fully adjustable task chair of solutions may help with minimizing the risk of suffering these disturbances.

Me Too's high quality and safety standards have been approved internationally by GS Certification from LGA (Landesgewerbeanstalt Bayern) Institute.

product design award

N11 Headquarters

Aksu & Suardi Studio

A wellness tool suited for your seated tasks.

Me Too **Fluid Motion Plus**®

Me Too **Fluid Motion**®

Me Too High / **Fluid Motion**®

Front Tilt

Only with Me Too **Fluid Motion Plus**[®]; front tilt ability up to 8 degrees releases accumulating stress on muscles, tendons and spine. Backrest support that counter balances your body forward, also works legs muscles and reduces exhaustion on knees.

Nurus D Lab

A black ergonomic office chair is positioned in a modern office environment. The chair features a high back with a mesh-like texture, adjustable armrests, and a five-star base with casters. It is situated on a grey carpeted floor next to a glass railing with a metal handrail. In the background, there is a large concrete pillar and a wall with vertical wood paneling. The word "nurus" is overlaid in white, bold, lowercase letters across the center of the image.
