TO Console

Design by **Tanju Özelgin**

To Console

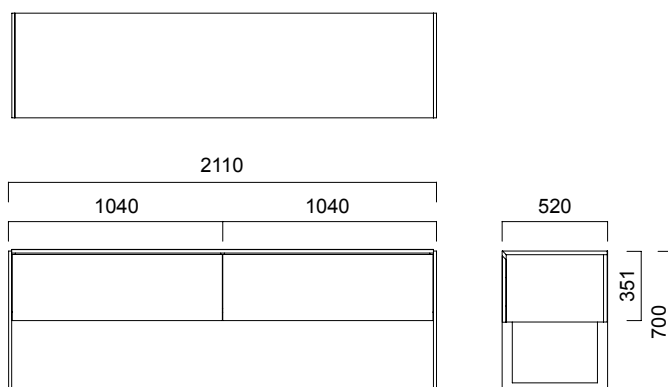

Presented in geometric and clear lines, To Consoles create a functional storage area in all living spaces; from meeting areas to executive offices and homes. Store your electronics for presentations and videoconferences or use it for your documents. To Consoles may be used in combination with other Nurus products or others from the To line.

Design by Tanju Özelgin

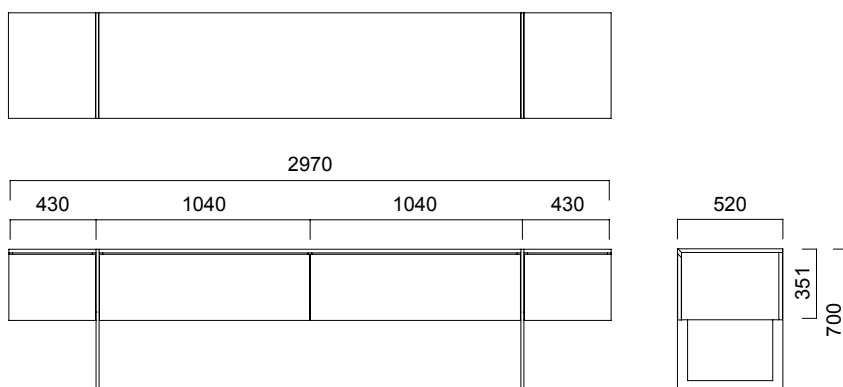

Tanju Özelgin is a 1984 graduate of Marmara University, Faculty of Fine Arts, Industrial Design. He founded Scala Design for exhibition stand, yacht, residence and office projects, a few years later on. Between 93 and 95 he worked with IN Mobilya, as a founding partner. A year later, he co-founded the Bright Red with Ertan Binme for industrial product design, digital video-graphics and interior planning and its applications. Since 2005, TO Design Studio, focuses on interior and industrial product design. Since 1998, he is also a faculty member and a project advisor.
