London Bench Collection

Design by **Nurus D Lab**

Mindful solutions for activity based work.

London Bench, tek para yapısı ve gizlenebilen ara panoları ile standardın üzerinde alıřma alanları oluřturuyor. Masa tablasını taşıyan tek ayađı ve pürüzsüz masa tablası ile hareket özgürlüğü sunan London Bench, gizlenebilen ara panoları sayesinde bireysel alıřmalar kadar ekip alıřmalarını da destekliyor.

London Bench is our modern take on the age old trestle table and bench design. Lean and sturdy, it may be used as a desk system, a workstation or a meeting table. Compact convertible form allows working individually in concentration or as a team and in collaboration.

Powder coated base frame may be upholstered with soundproof fabric material that contributes to acoustic comfort in open office environments. Custom cable tray removes cable clutter; centralizes and facilitates access to power and data connections.

- Compact uni-body design in black or white.
- From 140 (Double Bench) to 280 centimeters (Quatro Bench) of smooth, uninterrupted work surface.
- Silent, touch-convertible separator panels with optional, integrated lighting solution.
- T-frame provides comfortable leg space.
