Tools Collection

Design by **Nurus D Lab**

Functional and efficient work spaces.

Tools collection has a rich product range, including panels, accessory strips and organizer accessories. Tools collection facilitates your business life by organizing work spaces and keeping everything in place.

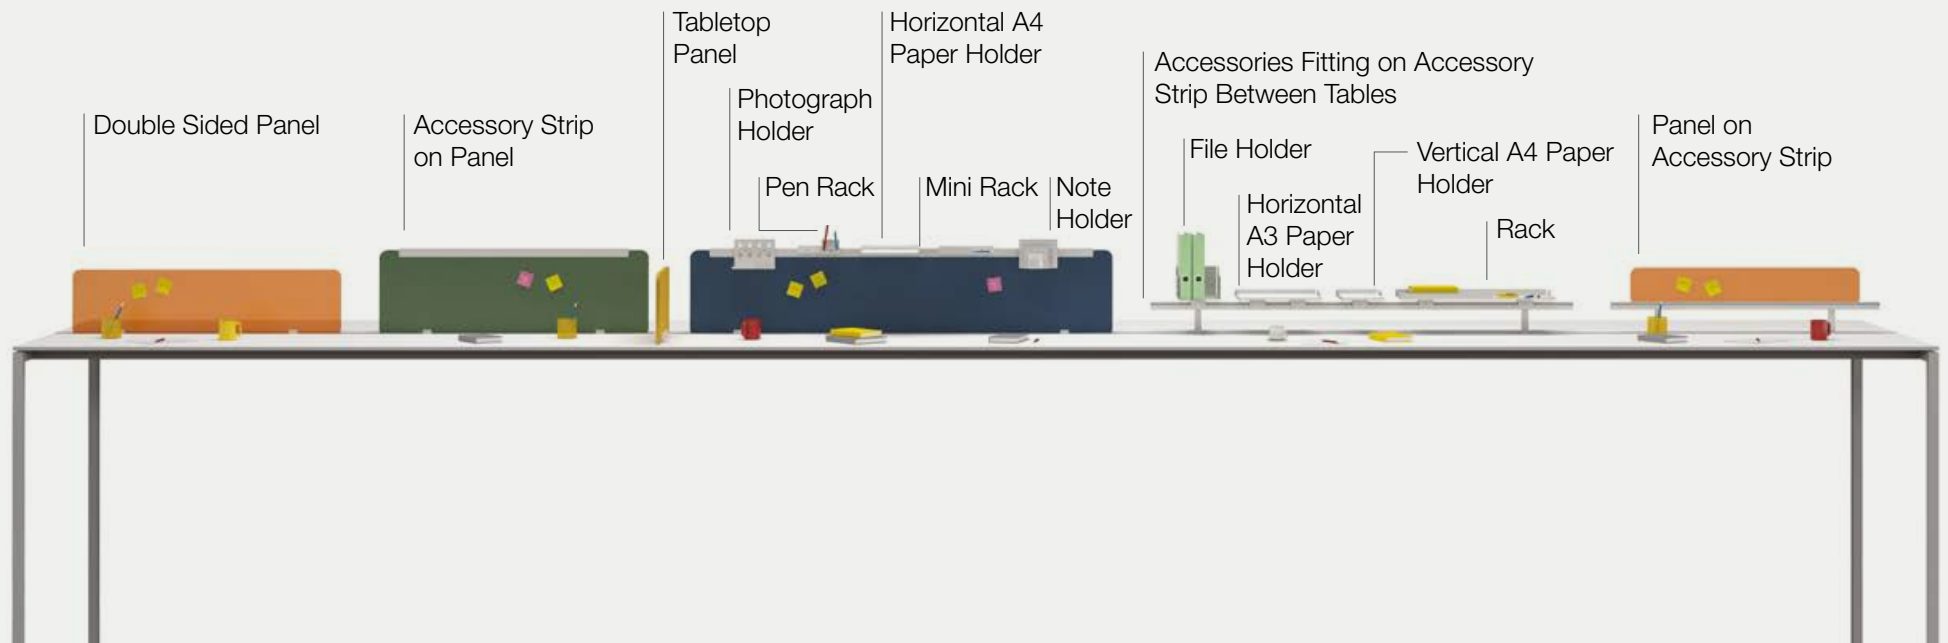

Tools collection was designed to organize and maintain work spaces in order to facilitate your business life. With a rich product range, including panels, accessory strips and organizer accessories, Tools collection provides a definitive solution to your business life requirements.

With options such as single or double sided panel, tabletop panel, and accessory strips, Tools collection creates customizable private working spaces in open offices. Panels are suitable for use with workstations and islands included in Nurus work systems, and offer melamine, acrylic, and cloth as material options.

Tools collection includes accessory strips that can be placed between the tables or on top of cabinets carrying table slabs or panels. Accessory strips of Tools can be used single or double sided to match the configuration of workstations.

Tools collection provides a variety of options with small organizers that can be attached onto accessory strips.

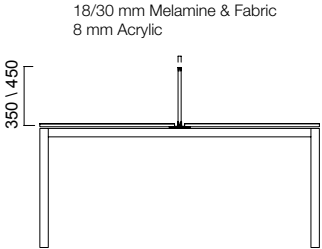

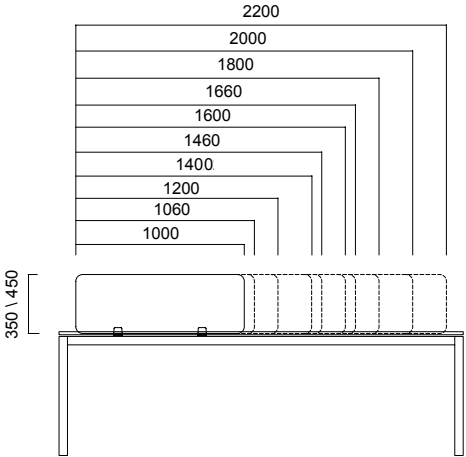

Tools accessories include desktop book holder, file holder, rack, vertical and horizontal paper holder, pen rack, note holder, photograph holder, and mini rack, along with CPU carrier, which can be used with Be2 cabinet. Tools accessories are classified into two groups: those that are hung and attached to accessory strip.
