Artistic Details...

The Atlantic lounge chair, designed by the Valencian design collective Culdesac, is a study in detail and balance. The beveled solid wood frame grounds the upholstery, as its contours balance graceful curves with dramatic angles. The artfully thin arms and back give Atlantic a lightness while still providing a sturdy structure for the loose cushions.

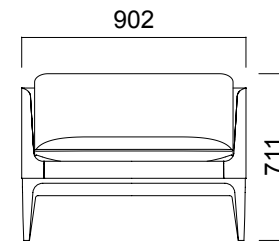

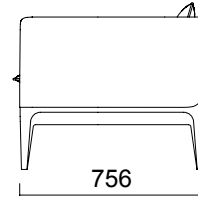

The generous planes of the seat and back lend a modern aura as the carved base references traditional wood craftsmanship.

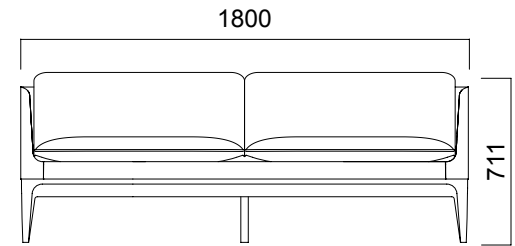

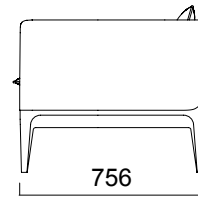

DIMENSIONS (mm)

Atlantic Single

Atlantic Double
