Tune Collection

Design by **Paul Brooks**

Simple design and rich product family reaches everywhere.

Tune features a minimal design and a durable structure, standing as solid proof that much can be accomplished with so little. Tune has a rich product family, suitable for use in all living spaces from homes to training centres, workspaces to social areas.

In addition to wide product group, Tuna also offers 4-leg, 4-leg with castors, and cantilever versions. Colour and material variety of Tuna collection facilitates blending in with the environment.

Leg choices and optional armrest featured in Tuna answers needs of different areas; Tuna is suitable for homes, waiting rooms, lounges, social areas, training centres, seminar and conference rooms, universities, cafés and restaurants, libraries, workspaces and more.

You can opt to utilize Tuna's seating surface with or without upholstery, and backrest can be plastic or net.
