Fe2 Collection

Design by **Nurus D Lab**

Orderly and functional living spaces with Fe2.

Fe2 was designed with the awareness that each field has different storage needs. Featuring different material choices, Fe2 provides flexible and functioning storage solutions for all living spaces including homes, executive offices, and open offices.

Fe2 was designed in consideration of different storage needs in all living spaces, from homes to executive offices and open offices. Rich product family of Fe2 features open-shelf cabinets, door cabinets, and cloak cabinets, providing flexible and functioning solutions for all storage requirements.

Fe2 can also be utilized to separate working space into several sections, facilitating efficient use of space.

Melamine and veneer choices featured in cabinet doors and rear panels of Fe2 collection seamlessly blends into usage space.
