# Bunny Collection

Design by **Nurus D Lab**

---

## Homely design with perfect balance and coziness...

Bunny is named after its design resembling a rabbit. It has a perfect balance with its bunny legs. Its lightweight makes it easy to move.

Bunny creates a cozy and homely atmosphere with its smooth lines. It is an ideal choice for homes as well as lounges, lobbies, hotels, cafes and waiting spaces. It also provides functional usage with its USB socket.
