Alava

Guidelines for
Use & Montage

Chic, stylish
& naturalistic;
anywhere...

Alava wields a modern character in a unibody, shell-like form. Rich product line allows for use in a variety of spaces including offices, lounges, and waiting rooms; in accommodation, hospitality and educational zones. Overall, it is a versatile and comfortable seating that always creates a strong impression.

We've used minimum material when interpreting the Alava design: It is eco-friendly, totally recyclable and has been recognized an award at the annual Green Good Design Awards for Energy Conversion; waste and pollution efficiency. Alava's polypropylene unibody, its cushioning and backrest are manufactured from materials that are a hundred percent recyclable, including any aluminum in various builds.

Oturma yüksekliği ayarı

You can adjust the seat height to your height by lifting the lever on the right side of the seat upwards. As you raise your seat, your weight should not be on your seat.

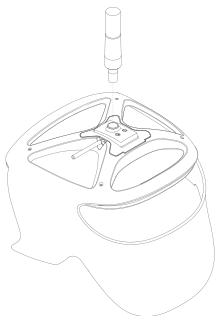

Backrest Tilt Adjustment

You can unrein the backrest by pulling the same lever. And you can fix the backrest in an upright position by pushing the lever forward.

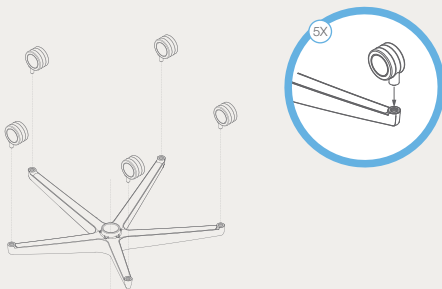

Mounting scheme – 1

Place the shock absorber in the slot on the mechanism as shown.

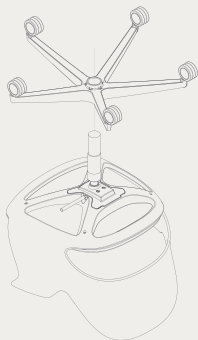

Mounting scheme - 2

Push the wheels in place by inserting the housing on the 5-star leg; make sure that the wheels are fully seated.

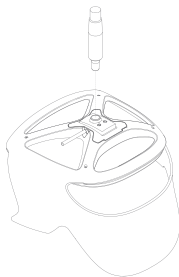

Mounting scheme – 3

Place the 5-star leg that you inserted wheels to the shock absorber you inserted to the mechanism. Your performance task chair is now ready to sit.

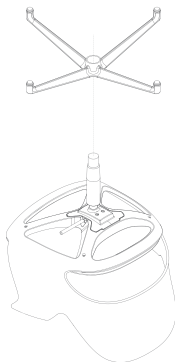

Mounting scheme – 1 (on Glades)

Place the shock absorber in the slot on the mechanism as shown.

Mounting scheme – 2 (on Glades)

Place the 4-star leg that you inserted wheels to the shock absorber you inserted to the mechanism. Your performance task chair is now ready to sit.

Thank you for choosing Alava
for your health.
Feel happy while using it.
